Please add the following new Abstract of the Disclosure as a separate page after the claims:

ABSTRACT OF THE DISCLOSURE

A preparation contains an aqueous liquid part, a solid part comprising at least one silicate selected from tricalcium silicate Ca_3SiO_5 and dicalcium silicate Ca_2SiO_4 ; and calcium chloride CaCl_2 and a water reducing agent which are both contained in at least one of the aforementioned parts. According to the invention, the solid part and the liquid part are intended to be mixed in order to obtain the material. The preparation can be used to restore a mineralized substance, particularly in the dental field.
